

# Evolve Telecom New Head Office - Design & Build

"Talis Projects carried out building and refurbishment to our brand new offices at Evolution House in The Garrison, Shoeburyness and we were extremely delighted with the outcome. They have a great team of skilled, professional specialist who were very accommodating to our, needs and requirements.

We felt that the whole process was stress free and finished to a very high quality. They completed the project within the timescale and we would highly recommend them and have no hesitation in using their services again."
